

## L. ETTU CUP

### **PROPOSITION N° 13** *(proposed by the Polish Association)*

Polish Table Tennis Federation acting on behalf of Polish clubs participating in ETTU Women Cup proposes to change the regulation of the ETTU CUP for season 2011/2012 by adding a point that all matches should be played in European regions.

Clarification of the proposal:

1. *This proposal refers to the team of Dalenergosetproekt Vladivostok, where matches are played in Asian part of Russia (few time zones, 9 hours difference from GMT);*
2. *Long process of acclimatisation is needed to be able to play the match;*
3. *Very high costs of trip and logistic process stretching the budgets of the clubs;*
4. *In previous years some teams decided not to go to Vladivostok and the Russian team progressed to the next round by W.O. In the season 2008/2009 Dalenergosetproekt advance to the semi-final of ETTU cup after 2 walkovers.*

We would like to point out that all matches in Vladivostok where organised professionally and we do not have any complaints about it, however as it is in other disciplines all the matches must be played in European part of Russia.
